Note: the status of every claim must be indicated after its claim number by using one of the following status identifiers: (Original), (Currently amended), (Canceled), (Previously presented), (New), (Not entered), (Withdrawn) and (Withdrawn-currently amended).
 - ☐ D. The claims of this amendment paper have not been presented in ascending numerical order.

TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. If any of above boxes 1. to 4. are checked, the correction required is only the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121.

Extensions of time are available under 37 CFR 1.136(a) only if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action.

Failure to timely respond to this notice will result in:

Abandonment of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action; or

Non-entry of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

/DANIEL WALSH/
Primary Examiner, Art Unit 2887

NOTE: The Examiner notes that the status identifier of claim 1 is "Currently Amended" but there does not appear to be any amendments in the claim (claim is not marked up). The Applicant's response also indicates claim amendments were made to claim 1, but claim 1 is not marked up (does not show any amendments).

Further, the Examiner notes that the circuitry in Zalewski is interpreted to constitute a transceiver (communication sections of the phone). However, the device itself can be interpreted as a transceiver, as well. Further, Perttola still teaches a common transceiver, since it recites "although it is possible in some implementation". This is not believed to be teaching away as argued by the Applicant. The Examiner suggests reconsideration of such arguments by the Applicant with filing a corrected response.
